

# CREATING POWER BI DASHBOARD FROM THE DATASET SUPERSTORE

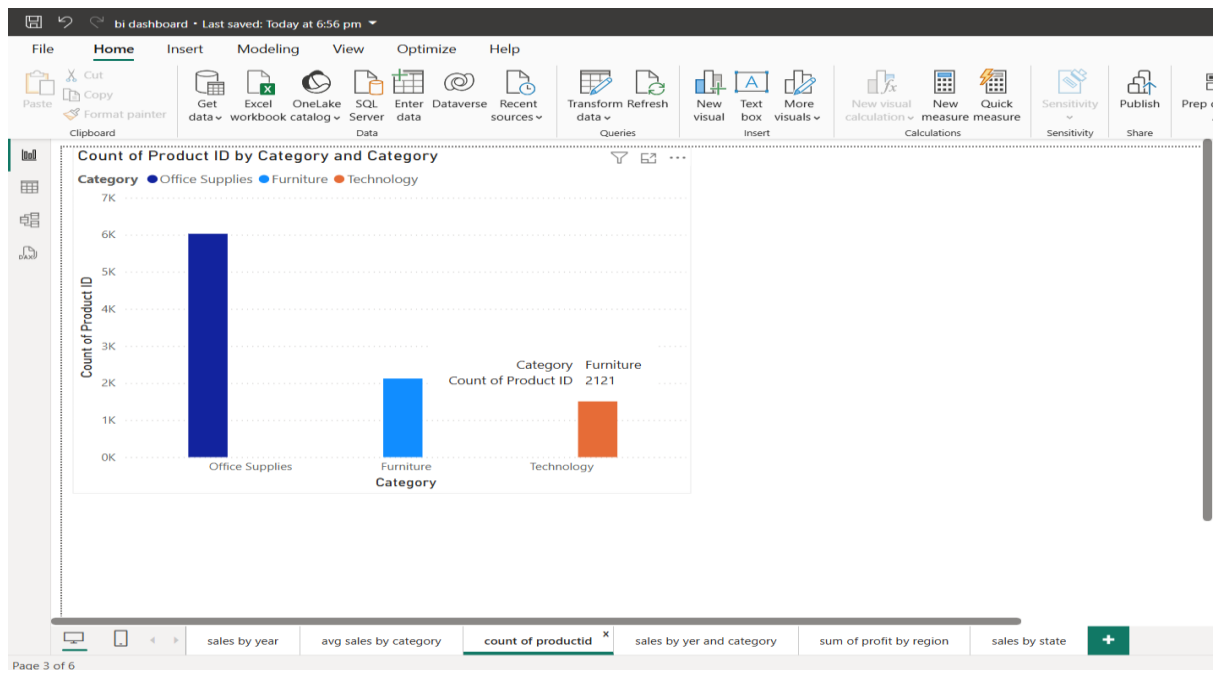

## I)SUM OF SALES BY YEAR AND CATEGORY:

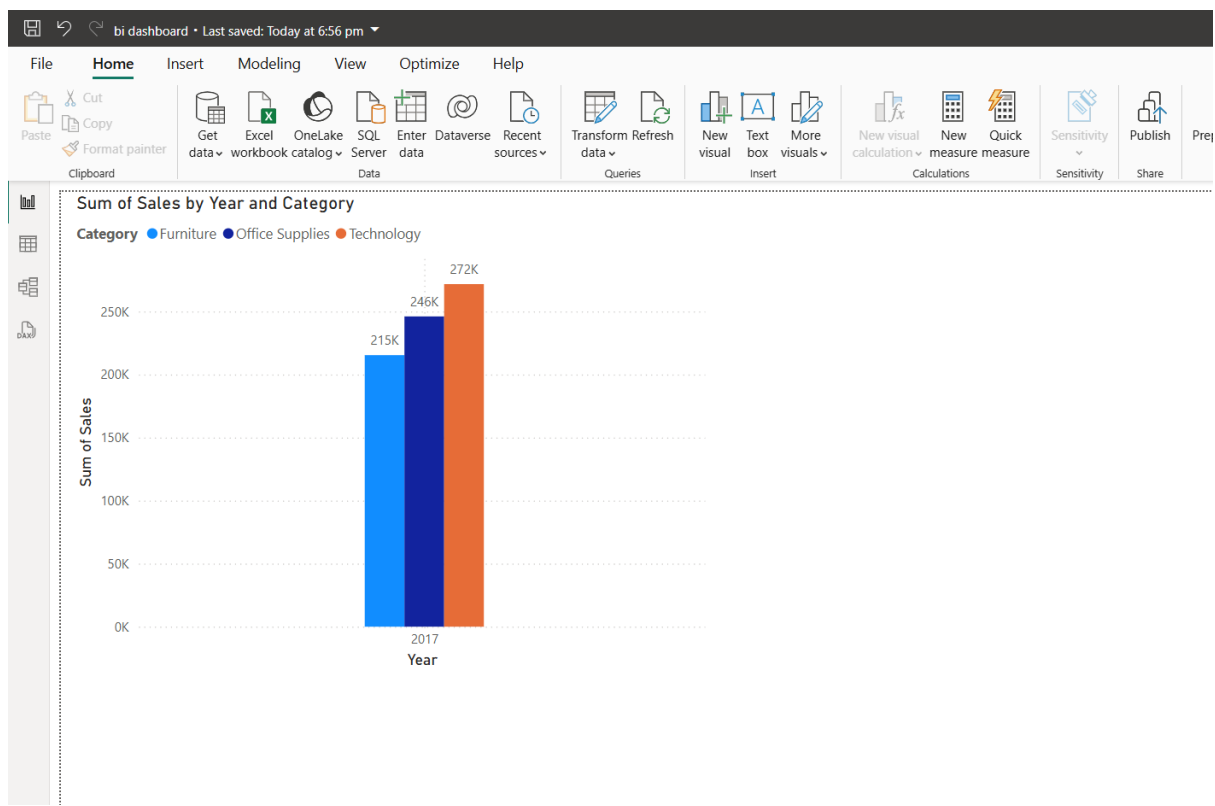

## II)AVERAGE SALES BY CATEGORY:

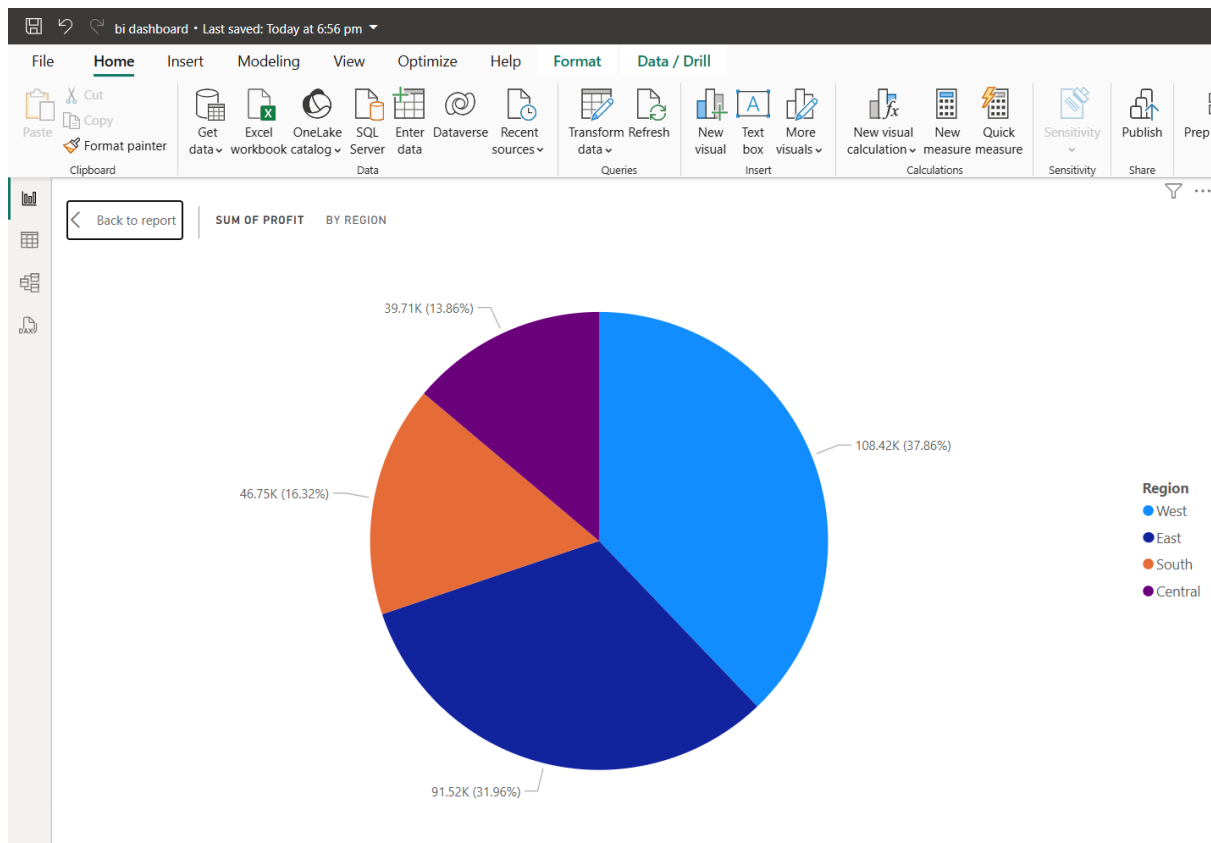

### III)COUNT OF PRODUCT ID:

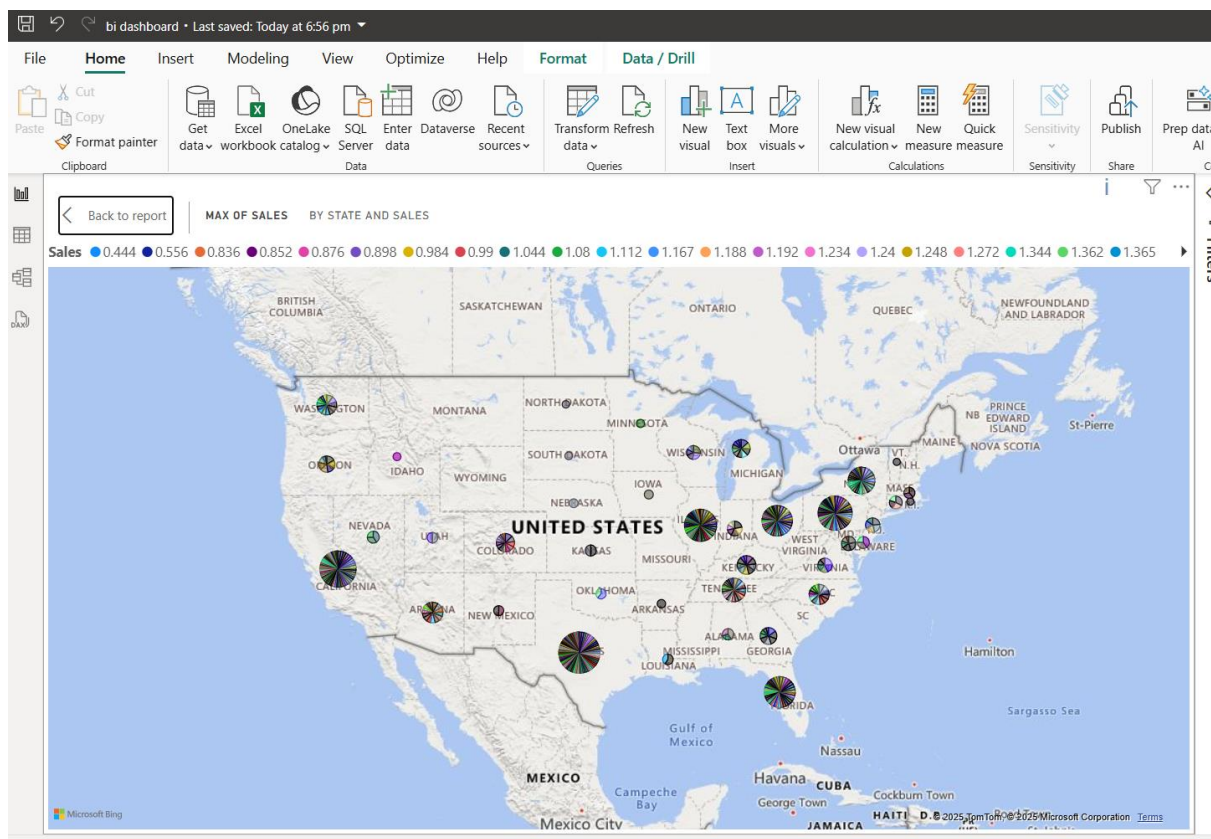

### IV)SALES BY YEAR AND CATEGORY:

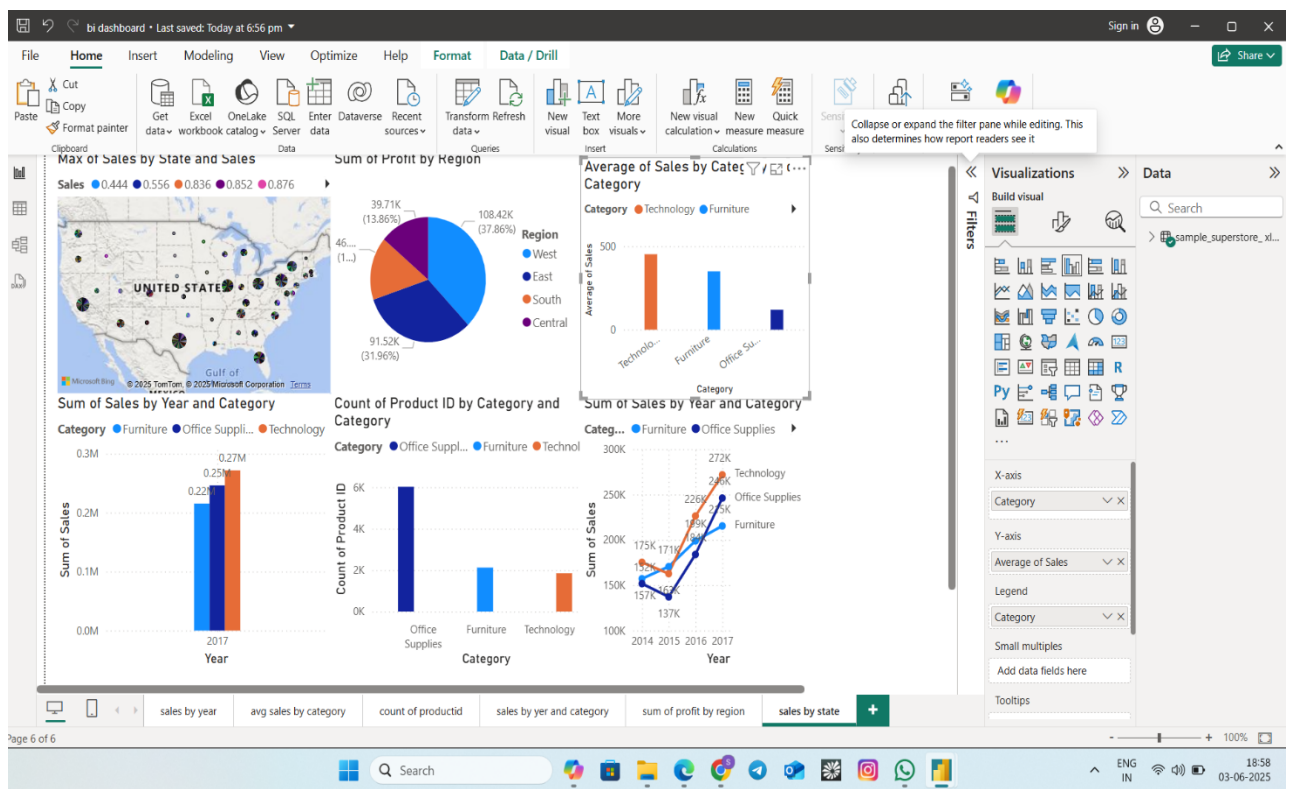

## V)SUM OF PROFIT BY REGION:

## VI)SALES BY STATE WISE:

## VII)THE FINAL DASHBOARD OF SUPERSTORE DATA:

This Dashboard tells you about the sales by country wise. This helps us to see from which states the sales are more and we can easily have an idea in which state you have to increase the sales.

The sum of profit by region helps us to analyze that from which part of the world the sales are good and from which states the sales are low. This helps us to analyse and increase the sales in particular regions.
